**T**he SWANA Northwest Regional Symposium Program Committee is seeking speakers interested in presenting for the Technical Program of the 2018 Northwest Regional Symposium. We invite all of you to come and share your experiences in the field of waste management, diversion, recovery and recycling with your colleagues. We've identified some tentative session topics below, but welcome all ideas relative to your experience in the industry.

Each presentation will last approximately one half hour, including questions and answers. Speakers get free registration to the Symposium on the day of their presentation.

To be considered as a presenter for the technical sessions, please submit an abstract (300 word or less), along with presentation title/subect, speaker bio, and contact information.

#### Suggested Topics

- Air Toxics
- Wood Management
- The Future of Recycling
- Asbestos
- Storm Water BMP's, Treatment, etc.
- Food Waste Collection, Processing, etc.
- Safety
- Landfill Gas
- Drones; Vector Control, Surveying, Aerial Photos, etc
- Re-Use
- Equipment
- Regulatory Updates
- Green House Gas Emissions
- Life Cycle Assessment

Troutdale, Oregon

#### Abstract Submission:

Please submit titles, abstracts, speaker name and biography, affiliation, address, phone number and e-mail address to:
